

One Tree Art Prize

Artist: Lee Hamlyn

Title: Collaboration

GPS: -35.28815, 149.06907

The Arboretum in Canberra showcases large stands of endangered trees from all over the world and protects their continued presence into the future.

The bonsai garden there is magical and the trees within it represent untold years of care, nurture and artistry.

This Blue atlas cedar has been styled and trained since 1980s.

What better subject to highlight the endless ways artists collaborate with nature.
