Title: Darkan Canola Fields

GPS: -33.364877,116.872610

While travelling from Yallingup to Uluru, we stopped for a cuppa on the side of the road between Darkan and Arthur River.

This area was resplendent with canola fields glowing across the countryside, and you couldn't help but appreciate the contrast of the beautiful native eucalyptus trees (Blackbutt) dotted alongside the back roads and popping up in small outcrops against the gold of the pastures. With their snowy white and red/brown bark and weeping foliage. Just waiting to be painted!
