Title: Dunsborough's Little Survivor

GPS: -33.6037,115.1065

This beautiful reliant little tree, sits amongst rocks and sand, beside beautiful Dunsborough Bay.

It amazes me how it has survived storms and heat. And thousands of people that would have stepped over it in its youth.

I painted in Willow Pattern style, because I walk our beach at Peppi in the same bay. And often find pieces of pottery with this pattern on it. Most likely from shipwrecks in the bay.
