Title: The Tree that Cared for me as a Child

GPS: -32.043130,115.961265

I spent a lot of time as a kid down by the Canning River, exploring and having fun. Being out in nature and being near the trees brought me a sense of comfort.

This tree is one of a set of three very large trees which sit in a clearing near the river. They've remained the same for my whole life, a steady and grounding presence.
