Title: Wind Blown Tree at Yallingup

GPS: -33.63844, 115.02555

My daughter loved holiday surf lessons at Yallingup Beach. And I came to love them too. To fill the hours, I would walk along the high sandy path above the beach, beside the most beautiful windblown trees.

These trees have been sculpted almost horizontal by the ocean winds, and their network of branches now provide generous canopies to the vegetation beneath. There is actually a bench placed beneath one of the trees and it has to be one of the happiest places to sit.
